

Listing of Claims

The following listing of claims will replace all prior versions, and listings, of claims in the subject application:

1. (original) A surface protective sheet having an anti-ultraviolet layer on at least one surface of a plastic film, wherein the anti-ultraviolet layer comprises at least an ionizing radiation curable resin composition, an ultraviolet absorber and spherical microparticles having a mean particle diameter of 1 to 20 μm , and the microparticles are contained in an amount of 0.4 to 3% by weight in the anti-ultraviolet layer.

2. (original) The surface protective sheet according to claim 1, wherein the anti-ultraviolet layer contains 0.01 to 1% by weight of an organopolysiloxane.

3. (currently amended) The surface protective sheet according to claim 1 [[or 2]], wherein the thickness of the anti-ultraviolet layer is 20 to 80% of the mean particle diameter of the microparticles.

4. (currently amended) The surface protective sheet according to ~~any one of claims 1 to 3~~ claim 1, wherein the ultraviolet absorber is an ultraviolet absorber having a formula weight of 200 to 400.

5. (new) The surface protective sheet according to claim 2, wherein the thickness of the anti-ultraviolet layer is 20 to 80% of the mean particle diameter of the microparticles.

6. (new) The surface protective sheet according to ~~any one of claims 1 to 3~~ claim 2, wherein the ultraviolet absorber is an ultraviolet absorber having a formula weight of 200 to 400.

7. (new) The surface protective sheet according to ~~any one of claims 1 to 3~~ claim 3, wherein the ultraviolet absorber is an ultraviolet absorber having a formula weight of 200 to 400.
